Dear Misha Vakoc,

Please look into what is happening in Dugualla Bay. I don't understand why a reasonable comment time is not being given to the people who live here, and the food that is grown here, and the animals that graze here. How are the fish impacted? What about the people who crab in the area? I expect the EPA to look out for our health. Please revise the permit.

Thank you,  
Erin Hildebrand
